SCHEDULE "B"
To By-law No. L.S.P.- 3429-167

Reasons for Designation
3378 Homewood Lane

Description of Property

3378 Homewood Lane is located on the westerly part of Lot 77 west of Colonel Talbot Road in the former Westminster Township, County of Middlesex.

Statement of Cultural Heritage Interest

3378 Homewood Lane is a property of cultural heritage interest and value mainly for its historical associations with the farming history of the former Westminster Township, now subsumed with the City of London. The house was constructed shortly after the western portion of lot 77 backing onto Homewood Lane was severed by the then property owner William Burrow(s) and sold to James Fenwick c. 1867. It is architecturally significant, in particular, for the detailed brickwork on the façade.

Description of Heritage Attributes

Architecturally, 3378 Homewood Lane is an extended one and one half story vernacular Gothic Revival farm cottage. The very fine level of decorative brick work which comprises the cornice is more redolent of a commercial building in a downtown urban setting. Recent alterations include vinyl soffits and framing of the centre gable window and several of the side elevation windows. Sympathetic additions using recycled white brick and similar decorative elements (i.e. staggered corner quoins) have been made to the rear elevation and to portions of both side elevations (and are not included in the list of heritage attributes).

The heritage attributes worthy of preservation include:

- White brick construction.
- Staggered brick corner quoins.
- Two unusual vertical sets of brick pilasters in the form of staggered "quoins" extending downward from the cornice to the foundation framing both sides of the front elevation centre door.
- Decorative cornice comprising paired angled bricks underlined by upside down ziggurat – like corbels.
- Gable roof.
- Steep centre gable over the front elevation door encasing a Gothic pointed window opening imitated in its shape by its brick voussoir.
- Segmental headed, double hung sash window openings, three on the north elevation, four on the south elevation and two either side of the centre door on the front elevation, all crowned by radiating brick voussoirs with brick sills.
- Centred front doorway crowned by radiating brick voussoirs forming a segmental arch and a door case with sidelights and transom.
- Basement windows, two on the south side elevation and one on the north side elevation also crowned likewise by radiating brick voussoirs.
- Foundation comprising sections of coursed and uncoursed fieldstone.
