NOTICE OF INTENTION TO DESIGNATE

TAKE NOTICE that the Council of The Corporation of the City of Owen Sound intends to designate the property, including lands and buildings, at the following municipal address as a property of cultural heritage value or interest under Part IV of the *Ontario Heritage Act*, R.S.O. 1990.

Description of the Property – Harrison Park, 75 2nd Avenue East

Harrison Park is located in the southern part of the City of Owen Sound, in the Sydenham River valley flanked by the Niagara Escarpment, with its main entrance at the southeast corner of 2nd Avenue East and 1st Street East, with a land mass of 86 acres.

Statement of Cultural Heritage Value or Interest

Harrison Park's cultural heritage value lies in tangible and intangible elements that, together, identify it as a place where significant natural beauty mixes with park design and built heritage, creating areas for community gatherings and recreational activities.

Purchased by early Owen Sound industrialist and community leader John Harrison (1824-1902) in 1875 and transferred to the Town of Owen Sound in 1912, Harrison Park has design or physical value as a good example of early parkland design on the urban-rural fringe. Under Harrison's ownership, roads and walking paths were developed, and thousands of trees planted; with municipal possession came development of the watercourse and pools, main entrance gates, campground, Inn, Bandstand, Community Hall, mini-golf course and swimming pool.

The Park's historical or associative value lies in its relationship with the Harrison Family legacy, particularly John Harrison's dream that these lands remain a place of beauty for all to enjoy, and his family's gift and sale of the lands to the municipality. Town Councillor and Parks Commission member, Edward Brigham was an Owen Sound area contractor and amateur landscape designer who generously donated an enormous amount of time and expertise to the early design and installation of park improvements. The first swans arrived in the park in 1912, a gift from King Edward V to Mayor Elias Lemon; generations of families have enjoyed feeding the swans and waterfowl, and looking at the exotic birds and deer.

The property has contextual value because of its importance in defining the area, and is physically, functionally, visually and historically linked to its surroundings as an Owen Sound landmark. Its vistas and views frame places of natural beauty which can be viewed from a variety of vantage points: on foot, on skis, riding bicycles, in a canoe, on a paddleboat or driving a car. Its trails link to regional and provincial trail systems.
