## STATEMENT OF REASONS FOR DESIGNATION

245 Henry Street, Cobourg

@ 2001

This one storey semi-detached home was originally constructed in 1856 and it is rectangular in structure with a small wing to the rear of the building that was built in 1998. The home sits on a cut stone foundation approximately one foot off the ground. The exterior is composed of brick painted white and laid in stretcher bond style. The roof is of a medium pitch hip with very narrow eaves and small box cornices. There is a single exterior chimney located to the centre right of the house. The windows and doors are asymmetrically placed with the main door being centrally placed in each unit and flanked by two windows, one on each side. The windows are double hung with six over six panes surrounded by a radiating arch in brick above and a wood lugsill below. The main doors are flush with the exterior and have simple surround consisting only of a radiating arch at its head.

Both entrances are complete with original wooden partially glazed doors comprised of four vertical panels, the upper two semi-circular in shape and glazed while the two panels below are recessed with a moulded rail. The doors open to a cement stoop of two steps. The exterior door on the front of the old part of the house remains original, as are the window surrounds. All interior trim was duplicated from the original during the 1998 restoration / addition.
