NOTICE OF PASSING OF A BY-LAW

**IN THE MATTER OF THE ONTARIO HERITAGE ACT, R.S.O. 1990,
CHAPTER 0.18 AND IN THE MATTER OF THE LANDS AND PREMISES AT
THE FOLLOWING ADDRESS IN THE COUNTY OF PRINCE EDWARD IN
THE PROVINCE OF ONTARIO.**

TAKE NOTICE THAT the Council of the Corporation of the County of Prince Edward passed By-law 1758-2006 on the 26th day of June, 2006 under Part IV of the Ontario Heritage Act, R.S.O. 1990, Chapter 0.18. By-law No. 1758-2006 designating the property, including lands and buildings, Milford Town Hall located at 3076-3080 County Road No. 10, Part of Lot 25, Conc. 1 S.B.R., Ward 9, South Marysburgh.

- **Milford Town Hall – 3076-3080 County Road No. 10, Ward 9, South Marysburgh**

The Milford Town Hall, was constructed in 1862. It was constructed for the Township of Marysburgh; the building is the oldest rural town hall in Prince Edward County, and the sole wood-frame example. Milford became an important settlement in the County in the early 19th century, and the town hall construction reflected this status-also expressed by several mills, for an economy based on timber, fishing, grain and apples. The building was the seat of the governance for South Marysburgh, and became a community centre with the creation of the Municipality of Prince Edward County in 1998. The front-gable building is notable for its locally milled, white pine, construction and cladding (over clad in the 1980s). Prominent details include the vernacular expression of a classical door surround (simplified pilasters, blocks for 'capitals' and transom), and two windows below the front gable, which show a typical county detail of the period – a sash divided into two lights to resemble casements. Although the original, ground-level windows are gone, the size and regular placement is a defining feature. The building was constructed by Samuel Love. He belonged to a prominent local family, and a relative, David J. Love, was Reeve of South Marysburgh Township (1897-98 and 1905).

Important remaining original materials include the wood (whether exposed or over clad), early glass and glazing bars (upper-level windows and door transom) and the stone foundation (purged in 1954). The lean-to additions are of various periods: the larger on the south side was constructed in the 1950s and 1990s, there is also a rear addition of undetermined date. The original, interior tongue-and-groove panelling of the wainscot, walls and ceiling are well preserved below later finishes.

A community hub formed around the town hall when a drill hall was constructed to the west (rear) in 1865. In addition to its landmark status as a former town hall, the set back and form of the building is in keeping with other 19th century structures on the street, ie. one-and-one half storeys in height, and a front gable form present with other commercial and industrial facilities.

Prepared and dated at the County of Prince Edward this 4th day of July, 2006.
