**SCHEDULE 'B' to By-Law No.2792 - 2011**

**Reasons for Designation:**

**Cultural Heritage Value**

**The building has design value because:**

Built of brick in 1869, the gable-ended structure has a stone foundation. The segmental-arched six-over-six windows are typical of the period. Also significant are the sidelights and arched transom around the door. Beldon's Atlas states that the Town Hall was built by John Thompsett who became Bailiff of the Court. The interior originally took a school form with pews on both sides and a 1-step stage at the front, hence the central door.

**The building has contextual value because:**

The Town Hall reflects the emerging prosperity of the village. On the main street, it reflects the social and political pride of a village moving away from settlement to a more robust economic era.

**Cultural Heritage Attributes**

- Brick construction over a stone foundation
- Gable end facing Main St.
- Segmental arched six-over-six windows
- Sidelights and arched transom
- Placement of central door and windows
