SCHEDULE A

REASONS FOR DESIGNATION (STATEMENT OF SIGNIFICANCE)

The property at 28 Howard Street is worthy of designation under Part IV, Section 29 of the Ontario Heritage Act for its cultural heritage value, and meets Ontario Regulation 9/06, the provincial criteria prescribed for municipal designation under the categories of design and contextual values.

Description

The William Whitehead House (1887) is a 2½-storey detached house form building that was commissioned and first occupied by a commissions' merchant & manufacturers' agent who represented English industrialists in Toronto. The house was constructed at 76 Howard Street, west of Parliament Street, where it was listed on the City of Toronto Inventory of Heritage Properties (now known as the Heritage Register) in 1974 and designated under Part IV, Section 29 of the Ontario Heritage Act in 2014 by City of Toronto By-law 385-2014. In 2016, the heritage building was relocated further west to a new site at 28 Howard Street on the north side of the street between Glen Road (west) and Edgedale Road (east) and beside the designated heritage properties at 32-34 Howard Street.

Statement of Cultural Heritage Value

The William Whitehead House is a late 19th century house form building with decorative Queen Anne Revival styling that is distinguished by its sprawling plan with the classical and medieval-inspired elements and the stone and terra cotta detailing.

Contextually, the William Whitehead House is an integral part of the collection of surviving heritage buildings dating to the late 19th and early 20th centuries and characterizing the Howard Street neighbourhood as it originated and evolved as a desirable upscale residential enclave southeast of Sherbourne Street and Bloor Street East. Historically and visually linked to its surroundings, the William Whitehead House is among the last remaining buildings on the north side of Howard Street.

Heritage Attributes

The heritage attributes of the William Whitehead House at 28 Howard Street are:

- The placement, setback and orientation of the building on the north side of Howard Street
- The scale, form and massing of the 2½-storey detached house form building with the rectangular-shaped plan
- The cross-gable roof with the brick chimney
- The red brick cladding with the brick, stone, wood and terra cotta trim
- The principal (south) elevation, which is dominated by the 2½-storey bay window under the projecting gable with the classical detailing, shingles and, in the attic level, paired round-arched window openings

- The main entrance, which is recessed in the right (east) bay and protected by the brick porch with the round-arched opening and classical detailing
- The fenestration, with the flat-headed window openings, the round-arched windows in the side (east and west) gables and, on the west elevation, the bay window
