SCHEDULE 2

COMMUNICATIONS PROTOCOL FOR AGENCIES

MINISTRY OF TOURISM AND CULTURE

1. PURPOSE

The purpose of this communications protocol is to set out a framework for the Ministry and Agency to collaborate on public communications opportunities.

Clear and direct lines of communication between the Ministry and its agencies are essential. This communications protocol will support both the Agency's implementation of its legislated mandate and the promotion of the work it does. It also supports the Minister's accountability to the Legislature and to Cabinet for the same.

2. DEFINITIONS

- a. "Public communications" means any material that is communicated to the public, either directly or through the media in:
- Oral form, such as a speech or public presentation
 - Printed form, such as a news release or hardcopy report
 - Electronic form, such as a posting to a website.
- b. A "contentious issue" is a matter that is, or may reasonably be expected to be, of concern to the legislative assembly or the public, and is likely to result in inquiries directed to the minister or government. Contentious issues may be raised by:
- Members of the Legislative Assembly
 - The public
 - Media
 - Stakeholders
 - Service delivery partners.

3. PRINCIPLES

- a. All communications planning processes between the Ministry and its agencies are to be handled in a confidential manner, respecting each organization's approval deadlines.
- b. The Ministry and the Agency will appoint persons to serve as public communications "leads".
- c. The Agency will identify, and share with the Ministry, appropriate opportunities for the inclusion of messaging on government priorities and to enhance the government's profile. The

Agency will also make the Ministry aware of contentious issues. Similarly, the Ministry will identify appropriate opportunities for Agency involvement (for example, cross-Ministry opportunities), and will make the Agency aware of contentious issues.

- d. The Agency will comply with the government's Visual Identity Directive and identify itself in all media responses, news releases and on its Web site as an Agency of the Government of Ontario.
- e. Agency communications that are related to the day-to-day business of the Agency as per Section 10(1) of the Act and do not have direct implications for either the Ministry or the government include, but are not limited to, items such as:
 - brochures and promotional items
 - information kits
 - reports (other than those required to be submitted to the Ministry)
 - routine web site updates
 - communications between the Agency and its stakeholders
 - responses on day-to-day operational matters
 - program communications (e.g., information regarding application guidelines and deadlines)

It is neither feasible nor necessary for Ministry involvement in these items. This category does not include contentious issues, media responses, or news releases that announce new grants or programs.

- f. Ministry involvement is required on Agency communications activities related to activities including, but not limited to:
 - program and/or grant announcements
 - milestone events
 - contentious issues

The Ministry's involvement in public communications products (media releases, backgrounders, web updates, etc.) related to these activities could include, where appropriate and mutually agreed, Minister participation, inclusion of provincial or ministerial messaging on government priorities, or opportunities for local MPP announcements.

4. PROCESS

Day-to-day operational matters between the Agency and the Ministry will be detailed in a separate Schedule, to be agreed upon by both parties.

This schedule will include, but may not be limited to, the following items:

- Designating a communications 'lead' for both the Ministry and Agency
- Communications planning and protocols
- Products requiring Minister's approval
- Timelines for the submission and review of public communications products, where appropriate.
